

## Fork-arm mounted camera (colour)

The fork-arm mounted camera MorE-FB is mainly used with reach trucks in storage applications. Attached to the inside of a fork blade, it allows operators to rapidly and safely handle pallets because now they are virtually always level with the fork entry.

Model MorE-FB

Technical Data	
Protection degree	IP68
Resistance to shock	> 100 g
Resistance to vibration	> 10 g
Housing	V2A/POM
Angle of view horizontal	45°
Min. illumination	0,5 lx
Image sensor	CCD, 1/4" 320.000 Pixel / CCIR, 50 Hz
Video signal	FBAS, 1Vss / 75 Ohm
Power supply	12V DC ±10 %
Current consumption	max. 0,2 A
Operating temperature	-35 ℃ +70 ℃
Storing temperature	-40 ℃ +75 ℃
